

ArcelorMittal

WireSolutions

The right partner for
sustainable business

WireSolutions

WireSolutions is the wire drawing division of ArcelorMittal and is one of the most important wire drawers in the world, bringing solutions to more than 4,000 customers. With 17 plants worldwide, WireSolutions offers a diversified portfolio of low and high carbon wires, steel cord, strands, ropes and corrosion resistant solutions. Automotive, construction, energy and agriculture are all important segments for WireSolutions.

WireSolutions regularly develops new solutions with the support of the research centres of the ArcelorMittal group. The company is well-known for its coating solutions: its famous Crapal® brand, which has outstanding anti-corrosive properties, is considered as a reference. WireSolutions also proposes galvanised solutions, with zinc+aluminium, organic and polyester coatings. All our products have an excellent life span guarantee.

Transforming tomorrow.

A solutions provider

Fencing and Agri-business

- Barbed wire
- Chain link fence
- Field fence
